

Barton College Athletic Department
Acceptance of Risk/Liability

1. Understands by its very nature, competitive athletics may put students in situations in which SERIOUS, CATASTROPHIC and perhaps, FATAL ACCIDENTS may occur
2. Understands many forms of athletic competition result in violent physical contact among players, the use of equipment which may result in accidents, strenuous physical exertion, and numerous other exposures to risk of injury.
3. Students and parents must assess the risks involved in such participation and make their choice to participate in spite of those risks. No amount of instruction, precaution, or supervision will totally eliminate all risk of injury. Just driving an automobile involves choice of risk, athletic participation by middle/junior, senior high school and college students also may be inherently dangerous.
4. Understands that even with the best of coaching, use of protective equipment, proper playing techniques, and strict observance of the rules, injuries are still a possibility. On rare occasion, these injuries can be so severe as to result in disability, total disability, paralysis, quadriplegia, or even death.
5. Understands that having passed a physical examination does not necessarily mean that he/she is physically qualified to engage in athletics, but only that the examiner did not find a medical reason to disqualify him/her
6. Understands the Barton College Athletic Training Staff and Team Physicians may review the health history questionnaire and physical examination and if necessary, require a follow-up examination or, further evaluation for injury or illness that may interfere/affect athletic participation. If such injury or condition warrants, athletic activity may be restricted, limited, or even discontinued by the Barton College Athletic Training Staff and Team Physicians
7. Understands and accepts the risks of injury, permanent disability and death inherent in his/her sport. By signing the verification of understanding, he/she pledges to do the best to reduce these risks by keeping in the best possible condition and following the advice of the team physician, attending physicians, athletic training staff and coach concerning prevention, treatment and rehabilitation of athletic injuries/illnesses.

We/I the undersigned have read and fully understand the preceding policy statements and warnings and agree to its procedures. We/I hereby release Barton College, its agents and employees, particularly the athletic training staff, from any liability caused by, or arising out of my athletic participation in the Barton College Athletic Program. ***By signing this consent, you agree that it will remain a valid consent form from the date signed until you request to have it changed.***

Barton College Athletic Department
Student-Athlete Nutritional Supplement Disclosure and Review Form

I, the undersigned, am taking or intend to take the following nutritional supplements. I acknowledge the risk of losing my eligibility to participate in intercollegiate athletics if I test positive for an NCAA banned substance that may be found in any substance that I may take, regardless of the reason or purpose for taking such supplements. I acknowledge the possible health risks that may be associated with taking an over-the-counter nutritional supplement.

I acknowledge and understand that the labeling on these products can be misleading and inaccurate because they are not regulated by the Food and Drug Administration (FDA) and that sales personnel are paid to sell these products and cannot accurately certify that these products contain no substances banned by the NCAA. Terms such as "healthy" or "naturally occurring" do not necessarily mean safe to take or safe to use, or that the NCAA endorses a product or approves its usage. In other words, what's in the bottle is not always on the label. If I do not know what I'm taking, I'm risking both my health and my eligibility.

The NCAA does not accept ignorance as an excuse following a positive drug test for a banned substance. Before taking or using any supplement, I am responsible for taking appropriate steps to ensure that it does not contain any substance banned by the NCAA. By making this disclosure, I am requesting that these products and their ingredients be reviewed by my institution's head athletic trainer for the purposes of determining whether they are medically safe to use and do not contain substances banned by the NCAA. I understand that I should not take or use these products until their usage has been approved by my institution's head athletic trainer.

Urinalysis Authorization and Release Consent**

I, the undersigned, have had an opportunity to review the Barton College Drug Testing Program and agree as a participant in the collegiate athletics program to be a part of this testing. I will also have the opportunity to ask questions and fully understand the provisions of the program. I consent to the taking of such samples if required, and understand that the testing will be done by a laboratory employee of the College.

I understand that the results will be treated confidentially, but I consent to the release of the results to the Athletic Director, Head Athletic Trainer and to my parents and/or guardian. If the Athletic Director feels it necessary, the team coach will be notified. I also consent to the release of these results to any other party deemed necessary by the Athletic Director for the purpose of special counseling or medical treatment.

I understand that I am free to withdraw this consent for urinalysis testing. However, I also understand that should I do so or refuse to submit to testing at the time requested, I will not be permitted to participate in any intercollegiate sporting program, and may lose my athletic financial aid.

I hereby release Barton College, its Trustees, Officers, Employees, Agents, and Representatives from legal responsibility or liability for the release of such information and records as authorized by this form. ***By signing this consent, you agree that it will remain a valid consent form from the date signed until the day after you are not enrolled at Barton***

Release of Athletic Healthcare Information

I, the undersigned, hereby grant permission and request that the Barton College Athletic Training Department release and discuss what they deem necessary for my safety, any information relating to my health care to the coaching staff, athletic administration, sports information office and my parents/guardians. This shall include injury/illness evaluation and diagnosis, treatment/rehabilitation plans and progress, availability and extent of my athletic participation and information related to referrals and possible surgical interventions. I understand that my injury/illness information is protected by federal regulations under either the Health Information Portability and Accountability Act (HIPPA) or the Family Educational Rights and Privacy Act of 1974 (the Buckley Amendment) and may not be disclosed without either my authorization under HIPPA or my consent under the Buckley Amendment. I understand that my signing of this authorization/release is voluntary and that my institution will not condition any health care treatment or payment, enrollment in a health plan or receipt of any benefits (if applicable) on whether I provide consent or authorization requested for this disclosure. I also understand that I am not required to sign this authorization/consent in order to be eligible for participation in NCAA or conference athletics. I do understand that failure to sign this consent/release that my privilege to participate in athletics at Barton College will be terminated.

I also permit the medical providers for Barton College Athletic Department, Barton College Student Health Services and the Athletic Training Department to discuss all aspects of my injuries/illnesses with each other, as they deem necessary for my safety and health care as well as to share all medical documentations. Documentation can include but not limited to physician notes/records, diagnostic test reports, physical and insurance information, referrals, medical notes, radiological test results and operative notes. Communications can include but not limited to injury/illness evaluation and diagnosis, treatment/rehabilitation plans and progress, availability and extent of my athletic participation and information related to referrals and possible surgical interventions. ***By signing this consent, you agree that it will remain a valid consent form from the date signed until you request to have it changed.***
