

Paying For College

We understand that paying for college can be difficult for many families. One way Barton College makes it easier is by offering a payment plan option that allows educational costs to be budgeted into manageable monthly payments.

If you do not want to pay in full by July 1 for fall semester, and December 1 for spring semester, the payment plan option may be best for you.

Payment Plan Option

The payment plan option offers you the flexibility of dividing the total amount due for the year into 10 monthly payments. The payments begin on July 1 and end on April 1. Payments are due the first of each month. The payment plan fee is \$75.00.

A late payment fee of \$25.00 per payment and a finance charge of 18% will be assessed on all past due payments.

In order to be eligible to pre-register for the next term, payments must be current.

All students are required to complete and return a student account agreement and disclosure statement to the Business Office. This document will be completed and sent to you for review and signature, once we receive the attached payment option selection card.

Please indicate your preferred payment option by checking the appropriate boxes on the attached payment option selection form and returning the card to the Business Office.
