

# **Graduate Student Satisfaction Survey**

**May 2019**

**Office of Institutional Research**

## Executive Summary

The Barton College Graduate Student Satisfaction Survey was designed in 2017, as part of a broader institutional effectiveness effort, to solicit graduate student opinions and perspectives about college programs and services and to gauge their viewpoints regarding the institution as a whole. Surveys such as this provide a means for understanding student opinion at a given point in time. The Spring 2019 iteration was only the second time that the graduate student body had been surveyed, as a whole, regarding their satisfaction. It is recommended that this same survey continue to be conducted every other year in the spring of odd-numbered years.

Most of the survey questions made use of the Likert-rating scale based on satisfaction levels reported as follows:

Very Satisfied = 5

Satisfied = 4

Neutral = 3

Dissatisfied = 2

Very Dissatisfied = 1

Questions 3.1, 3.2 and 3.3 made use of a 5-point rating scale based on answer choices of poor (1), fair (2), neutral (3), good (4), and excellent (5). Respondents also had the option of abstaining or selecting N/A for each of the survey questions.

The survey was administered using the Class Climate online evaluation system. The initial e-mail invitation for survey participation was sent to 77 graduate students on Thursday, March 14, 2019. Reminders were sent to non-respondents on March 23, 2019, March 31, 2019, April 8, 2019, and April 16, 2019. The survey closed on Friday, April 19, 2019. Twenty-five responses were received for a response rate of 32% (down from 40.4% in 2017). In the future, it is recommended that the survey be sent earlier, publicized via the faculty, and that students be incentivized in some way for participating.

Results were compiled for the graduate student group as a whole and have also been disaggregated for students seeking the MSN degree, students seeking the MSA degree, students seeking the MS in Criminology and Criminal Justice Sciences, students seeking the MBA degree, and students seeking Teacher Licensure.

An overall average score was calculated for the response to each question, as indicated on Attachment 1. This report also provides, on page 5, demographic information about the students who participated in the survey. Page 8 of this reports contains the comments provided by the participants. Average scores for each question were also calculated for the various subgroups of respondents – full-time vs. part-time (Attachment 2), Barton undergraduate vs. non-Barton undergraduate students (Attachment 3), students seeking an MBA (Attachment 4), students seeking an MSA (Attachment 5), students seeking an MSN (Attachment 6), students seeking an MS in Criminology and Criminal Justice Sciences (Attachment 7), students seeking graduate-level Teacher Licensure (Attachment 8), and a comparison of the responses provided by the MBA, MSN and MSA students (Attachment 9).

Finally, a report comparing the 2017 responses to the 2019 responses is included (Attachment 10) as are reports comparing the responses of the MSA, MBA, MSN, and Teacher Licensure students in 2017 vs. their responses in 2019 (Attachments 11-14) and a blank copy of the questionnaire used (Attachment 15). Note that the numbers of students in each sub-group is very small.

### **Key Findings**

- Overall, Barton graduate students responded extremely positively regarding the experiences and with the services available to them. In fact, the selection of food offered in the cafeteria (question 4.28,) and selection of food offered by additional food service options on campus (question 4.29) received the lowest average scores with each receiving a 3.7.
- There were only 3 other questions to receive a mean score of less than 4.0, these being the quality of the student account center/online payment portal (question 4.9, average score of 3.9), student activities available to you (question 4.14, average score of 3.9), and selection of products in the campus vending machines (question 4.30, average score of 3.9).
- Graduate students expressed the greatest satisfaction with the quality of the faculty (question 2.1, average score of 4.6), the course registration process (question 4.3, average score of 4.7), notification of registration dates and course offerings (question 4.4, average score of 4.6), and overall quality of the college (question 4.31, average score of 4.6).
- For the vast majority of questions, full-time and part-time students' satisfaction rates varied little (Attachment 2), as did Barton undergraduate vs. non-Barton undergraduates' satisfaction rates (Attachment 3).
- The MBA students were most satisfied with the courses they have taken on-campus (question 4.19) and least satisfied with the quality of the student account center/online payment portal (question 4.9) (Attachment 4).
- The MSA students were most satisfied with the quality of the faculty (question 2.1), course registration process (question 4.3), notification of registration dates (question 4.4), and courses they have taken on-campus (question 4.19) and least satisfied with the selection of food offered by additional food service options on campus (question 4.29) (Attachment 5).
- The MSN students were most satisfied with the academic reputation of the college (question 3.1), the notification of registration dates (question 4.4), the quality of Campus Connect (question 4.6), the appearance of the campus buildings and grounds (question 4.23), cleanliness of campus buildings (question 4.24), and overall quality of the college (question 4.31) and least satisfied with academic rigor of the courses (question 2.6), personal attention received by Barton students (question 3.3), and selection of products in the vending machines (question 4.30) (Attachment 6).
- The MS in CCJS students were most satisfied with course selections (question 2.4), course availability (question 2.5), academic rigor of the courses (question 2.6), academic reputation of the college (question 3.1), and value of the Barton education (question 3.2), in addition to many other questions which received an average score of 5.0. They were least satisfied with student activities available to them (question 4.14), selection of food offered in the cafeteria (question 4.28), and selection of food offered by additional food service options on campus (question 4.29) (Attachment 7).
- The Teacher Licensure students were most satisfied with quality of the faculty (question 2.1) and the accessibility of the faculty (question 2.2) and least satisfied with the quality of the student account center/online payment portal (question 4.9), reliability of wireless connectivity on campus (question 4.21), quality of services offered by the Office of Career Services (question 4.22), availability of places

to charge electronic devices (question 4.25), classroom environment (question 4.26), and selection of food in the cafeteria, other options on campus and in the vending machines (questions 4.28-4.30) (Attachment 8).

- In general, the MSA students who responded appear to be the most satisfied with the educational experiences, although the number of responses was very low when the data was disaggregated (Attachment 9). Again, no question received an average score below 3.5.
- Attachment 10 compares the responses for all respondents in 2017 versus those of all respondents in 2019. Ratings having to do with the educational experience improved in all areas (questions 2.1-2.7), as they did in several other areas. Overall, graduate student ratings of the programs and services have not changed significantly since 2017 and are overwhelmingly positive.

# Graduate Student Satisfaction Survey

Graduate Student Satisfaction Survey 2019 (GRSatis19)

No. of responses = 25

No. of enrolled = 77

% returned = 32.5
