5. How would you rate your satisfaction with the following aspects of student life at Barton College:

Comments Report

1. Barton College Experience

1.3) Comments:

- Academically I feel like I am getting a really solid education, especially in the exercise science department.
- Class availability is horrendous. Classes need to be offered more than once a year. Let teachers teach without controlling everything they do and have to say or cover.
- Expected more empathy and compassion from professors. Would hope that the professors care about the students success.
- I am in the science department and overall, it could be way better. However, I do like most of my professors.
- I have the best experience
- I love the support and ease of access at Barton.
- I put satisfied for my academic experience here at Barton College, because my online teacher for Microbiology, Tony Matthews, has given me zeros on tests, when I showed the room but other people in the class did not show the room, and they continue to get full credit. I have talked to the Dean, Dr. Dommer, and he has been in contact with Mr. Matthews, and the teacher allowed me to make a five-minute presentation to replace a zero on a test, which I am very appreciative about. I know I am not the only one that he has given zeros to, but it is unfair considering I showed the room, but others have not.
- It's an amazing college. I especially like the community.
- I think that the student government association should allow one person to attend a senate meeting for multiple clubs. Most people on campus are involved in multiple clubs, sports, or work and can't always attend senate meetings. I know that myself and several other students are consistently the only people in their clubs that can attend a senate meeting because other members have work or practice. We have to choose which club gets the points for attendance, despite relaying information to all clubs. Requiring multiple people to attend for different clubs doesn't encourage campus involvement, it consistently creates obstacles for smaller clubs and those involved in several campus organizations.
- I've been failed by my advisor Miguel, when going in to talk to him I was talked down upon. And yelled at saying that it was all my fault. He was disrespectful and rude. As a mass communications professor he failed to communicate properly. Barton has been a very disappointing experience. Many people I know have been screwed over from their majors, or double majors. And forced to complete another year. This is unacceptable.
- My academic experience at Barton has been great, as the nursing, psychology, and science programs are exceptional. Campus living overall is mediocre at best. Living conditions for the dorm rooms are questionable, as mold, bugs, water leaks, plumbing issues, and elevators constantly breaking are common issues. Overall security of the dorm rooms are a concern, as doors are frequently left propped open or doors are broken and are not fixed for several weeks. Campus food choices are okay, as the cafeteria does offer a large variety of food, but only on the weekdays.
- My experience at Barton has been good. The students and staff are friendly and helpful and I have sufficient access to academic resources.
- My experience is good.
- My first semester here, I had a really bad professor. I took it up with the dean. In my now second semester, I also have a really bad professor.
- N/A (4 Counts)
- n/a
- na
- NA
- Never felt like I belonged here. I belonged in a school that wasn't so sports and medical school centered, but I was told the 'bio' program was great, not knowing that the biology program was 98% medical. Though the science building is thankfully being rebuilt, the residence halls and art building are disgusting and rotting away.
- No.
- Not a good environment at Barton College, problems with the dorm constantly and with the way this institution is run is a mess
- Not the worst but definitely could be better in both aspects. I also think that moving the MBA program to all online makes it tougher to learn and actually pick up the concepts

- Not what I expected to be my first college experience. Not much to do here.
- Poor maintenance
Unfriendly environment
- Teachers are super nice and supportive
- The facilities need to be renovated and cleared of mold. Caf workers close half of the building before 6pm when they close at 8pm. Women's and Men's soccer do not have their own locker room. Barton chooses to build an away team locker room instead. Tuition continues to increase but there are no positive changes being made for students.
- The professors are engaging and teach the content very well. I feel supported through my advisors, coaches, and international student representatives.
- The school does not put there students first at all and does not care about them and just cares about what people on the outside thinks of the school.
- The time here had it's ups and downs.
- The tuition keeps going up and yet the food has gotten worse, the living arrangements are horrendous now because you are squeezing as many students as you can into as few rooms that are available, the bistro closes early every night, so the food available is so limited to those who are actually busy during the day. Hell, the cafeteria staff closes most of the cafeteria 2 hours early because they want to get out of there as soon as they can. The parking situation is crap, there's nowhere near enough room for the amount of students we have. The game room needs to actually be watched. When something breaks because of some idiot the whole student body is essentially punished because the thing won't get fixed for months on end.
- This is my first semester at Barton, Everyone has been really friendly and helpful.
- Wish the campus did more activities and events for the students.
- wish there were more student hangout areas

2. How would you rate your satisfaction with the following aspects of your educational experience:

2.10) Comments:

- Although the college has an amazing support system and great class selection. It's hard to choose classes because everything is always full.
- I don't think the online learning and courses are very beneficial. I do not feel like I am getting very well prepared for my field.
- I think it would be beneficial for academic support services to allow you to request a specific tutor that you have had before and like.
- My professors are doing a good job.
- N/a
- N/A (4 Counts)
- n/a
- NA
- Need to offer more courses and times, and a variety of courses for first year students.
- No.
- Online classes are the best
- Overall, I think courses and career interested are given to us students, but sometimes, it is hard to get into a class that you need.
- Overall really solid just some faculty have been very helpful and some faculty have been not as helpful especially in responding to emails.
- Seems pretty easy and simple
- The amount of work due when taking multiple classes is very difficult for myself when I also work full-time and have a family. The short time to get assignments finished and turned in.
- Theirs a handful of advisors and professors that have bent over backwards for me due to Miguel messing up. Dean Eggers and Sue Mathewson are some of the most hard working and best individuals at this college. And they are treated like dirt. It's absolutely unacceptable. They are respected among students and always make sure to do their best.

- The professors are helpful and understanding.
- The teachers and faculty were a big help in my academics.
- Wish there were electives based on Master's programs. For example, if someone wants to take a Strategic Leadership course, there should be something for undergraduate students, not just those in the MBA program. Also, wish there were more elective options in general that are more specific to a certain topic. Like religion classes based on certain aspects of The Bible.

7. Summary

7.1) What are your suggestions for making Barton College a better place to obtain a high-quality education?

- - improve pricing when students need to buy online books
- - improve opportunities for students to obtain internships on campus
- - improve services of culinary center
- - improve quality of residences halls - for the amount of students paying, the rooms are with old furniture, uncontrollable temperatures, bathroom cleanness...
- - improve scholarships for high academic students
- -Newer books in the library; updated in terms of modern research and facts for non fiction books
- -Better outdoor care for all the buildings; power washing and renewed plants
- -Re-making of brick walkways--they flood during the rain and are very uneven
- -More handicap accessibility--again smoother walkways and more ramps or easier elevator accessibility for those in wheelchairs
- -Suggest hiring professors who are more experienced in their field of teaching or have personal experience with the knowledge their putting down
- -Easier printing! It's very confusing and a long process for first-year students and still myself
- - prepare students for higher education and obtaining a job
- - offer students more resources to gain connections outside of Barton for jobs, internships, etc.
- - put more money into the laboratory equipment
- - do classroom checks and ask for feedback from students on a regular basis
- - challenge me more in the classroom
- - hire professors who are experts at what they are teaching
- 1. The president being on campus more and interacting with students.
- 2. Cutting development programs or being honest and telling students they are dev programs.
- 3. Campus safety: putting a barrier around the campus, too many strangers walking around
- 4. More course offerings
- 5. Bringing more D9 fraternities and sororities to the campus
- 6. Better cafe hours *6:30 AM to 8:30 PM
- 7. The Bistro being open from 7:00 AM to 10:00 PM, not just having inconsistent hours
- Advertise the help centers more than just in the first two days of school
- As a student-athlete at Barton College, I believe there are several ways the institution could enhance its academic environment and provide a more well-rounded, high-quality education. Expanding the variety of course offerings to include more career-focused subjects, such as entrepreneurship, digital marketing, and applied sciences as well as real estate—would better prepare students for life after graduation. Strengthening internship and cooperative education programs through partnerships with local businesses and allowing out of state/international students to do there internships at home over breaks would also provide valuable hands-on experience, especially for student-athletes seeking flexible opportunities that fit around their athletic commitments. Investing in ongoing professional development for faculty would ensure that teaching methods and course content remain current and engaging.
- A variety of academic opportunities for student success, an increase in tutoring services, and more hiring of positive and passionate professors/faculty members of Barton College!
- Barton College could enhance education quality by offering more hands-on learning opportunities, expanding internship programs, improving campus technology.
- Barton has the opportunity to provide a high quality education but I feel like especially for someone like me who is now all online for the MBA, that I am not receiving the best education that I can. I feel like I haven't learned much at Barton and the online classes make it no better. Instead of teachers just loading students with busy work to get a grade I feel like they need to be getting us better prepared for our future careers. I am not saying that Barton is the worst education but there is no doubt it can improve.
- Barton is a wonderful place of education.
- Barton needs a lot of work and they need to actually put there students and staff first. I lived on campus and had mold all in my place and they made my friends and I feel like we were crazy for trying so hard to get out of the place. We were fighting with everyone on campus to try and get off and no one cared, they finally moved us out for a month and we were given nothing, no wifi, no washer or dryer, nothing. I thought barton cared about their students? We were given no money back and no one cared about our health or anything. As long as Barton looks good to the outside people they do not care about anything else and it is sad for all the money we are paying you would think it would be better but it is actually terrible. Also why are the people working in the cafe shutting down half of the cafe while there is still two hours left of them being open and we need better food options and stop using left over food. Like where is our money going? Thank you for reading :)
- Better food quality in the cafe.
- Better housing
- Better library staff. I have had problems with I believe her name is "Norma" and anytime we have came in to ask a question she has been

quite rude and almost seems racially motivated. Tried to kick me out of a room upstairs even though the library was empty and proceeded to walk around the upstairs area until I left (this was a while ago). Along with not letting my friend take a book out of the library even though she was allowed to check it out. We are both people of color and it seems that anytime we ask or have an occurrence with her she's rude. I would understand if it was something difficult but often times we're asking for something small.

- Better quality of food in the cafeteria. More equipment and lab supplies in the laboratories. A cleaner laboratory.
- Better residence halls upgrade to where everyone has their own AC unit replace the air filters. Regarding the meal plan, I would like them to serve the food they do on days when recruits visit all the time, this week BBQ chicken fresh baked cod, Asian cuisine. 2 of those 3 days we had recruits, education wise make books more affordable or for those who need it luckily most of mine I can find.
- Better support from Business Office
- Can't think of anything specific at the moment.
- Cleaning and maintaining the dorms as well as bettering the culinary services.
- Consistency
- Continue to provide students with as many resources as possible.
- Give more attention to programs like the Art programs and give them more resources. Try to help students get more loans, especially those who struggling money wise. Try expanding on things that can help other sports that aren't as fortunate.
- Have microbiology class/lab in person. With so much material that the students have to learn and understand in such a short amount of time, it's important they understand everything, get a more hands-on experience, and be able to talk and ask the teacher questions face-to-face.
- Have professors understand students have games and have to miss class. Also, make the online classes more understandable
- Having a high student count for each class, so it's easier to get classes, but not big enough that it's hard for the professors to not have time for their students. Other than that I think Barton College is a great choice for my college years.
- Healthier options in the Caf and Market C/not closing half of the building before 6pm.
Renovation of almost every building, especially housing. (Mold, Out-Dated)
Locker rooms for all sports.
Over cleanliness of facilities needs to improve.
Put students first.
- Helping people with the balance of school and work.
- I believe that the education aspect is good, it's unfortunate to see some majors being discontinued, but overall good.
- I don't know
- If cutting back student activities, small programs, etc that can help lower the cost of attendance.
- If we are paying an extra \$250 for "on-campus activities", there should at least be some good ones. Inflatable soccer was a good one, more like that should be good.
- I honestly have no idea.
- I suggest That we build a new Sciences building and a better lab for sciences students. It will also be appreciated if online classes should reduce the load of assignments given to the students because they are not they only classes that students are taking in one semester.
- I think Barton offers many course that can be used to any major or that you can use in the real-world, just some classes are harder to get into than others.
- I think that Barton is perfect since their classes to their staff/ teachers.
- I think that overall the classes themselves are okay, they're not hard to pass if students actually do the work and try to learn the material. I haven't had a teacher that wasn't willing to help a student that was trying.
- I think that the dorms could be updated to provide a more pleasurable living experience when students are not in the classroom.
- I think the nursing students need more professors. I feel that they are stretched too thin. I bet that if there were more professors teaching then the quality of education would be above everyone else in the state. I love that they "hold our hands" through this journey and truly guide us and teach us with heart and love what they do. However, several teachers teach more than one subject and they are hours long, which I'm sure runs them thin and I think if they had more facility support then the quality would be much higher because they wouldn't be so overworked. The quality is great now but it could be higher. Nursing school should only be hard for students. It is a fountain of

knowledge to learn and implement. As an older student who has children/family, I can only imagine how thin the professors are spread (who have to manage a work life balance, family and self care balance) and it bothers my heart. We are lucky they have decided to teach because the balance seems much worse than if they would have stayed in patient care.

- I'd add more diversity in the Greek life, let more fraternities and sororities come to campus!
More diversity on campus would be nice we have more exchange students than anything
Barton should have their own website like facebook or i Carly had, and maybe more bulldog bucks each semester.
Bring more educational, science and theatre majors and courses back to campus!
- I've had multiple advisors here at Barton. Starting with an education major I was disappointed when I found that before my freshman year was over I already needed to do a 5th year. Unacceptable. My other advisor Miguel has been rude and no help at all. He's been known to snap at students, dismissive and vulgar with his words. Barton doesn't do anything for the health of their students when it comes to mold in Keenan, ecs, wenger, hackney, waters, Hilly. The grounds individuals are amazing and hard working people that go above and beyond everyday for us. Although not given the right tool to succeed. It seems like that's the on going theme for Barton college. They say they want success but they don't give the tools or they take them away. This is a liberal arts college and you fail to offer liberal arts classes. You also fail to inform your students when classes are only available during the fall/ spring. Certain advisors are doing the work for other advisors because some advisors can't do their job. Barton is an all around disappointment, and terrible experience. I enjoy my social aspects because it's what you make it. Although if I had to choose to do college all over again I would never ever pick Barton again.
- just a few areas are missing, one brick, and I have seen multiple people fall and injure themselves. Everything else is great
- Less online work, teachers load online work and it is difficult to understand exactly what they are trying to say.
Class engagement
Navi Pooni does a great job at providing class engagement and showing the importance of a class rather than just the work to receive a grade.
- Making sure we have better education through hiring professors for classes and making sure they have all the equipment they need to run the class properly. Also adding more food options for us on campus and having more cleanliness on on-campus housing.
- More gluten free options in the cafe and more healthy dinners please. Better courses offered over J-Term
- More updated facilities
- N/A (6 Counts)
- na
- Need more activities on camp
- none
- no suggestions
- Offer classes that are required for degrees
- Offer more classes within specific majors and allow for more learning opportunities within the major.
- Offer more neutral options in the dining hall as most of the time there are very exotic foods at all stations that a lot of people do not like to eat. Also, have more services available that allow for on campus housing to be fixed such as the doors that have been broken in hillely for multiple weeks
- open bistro on weekends, would go all the time
- Overall, the quality of the facilities (bathrooms, hallways, classrooms, etc) vary greatly. I notice certain bathrooms do not have soap or adequate hand-drying tools, nor are they consistently clean per every building. Certain bathrooms don't have sinks that have running water and older buildings have paint chipping off the walls. I often find trash and dust around older buildings on campus. The student convenience shop is under-stocked and vending machines are often understocked or empty.
- Perhaps just an update on facilities. The people who work at barton are extremely competent and very good at their job.
- Provide more online classes across majors and make English classes available at more variable times of day. It is also incredibly hard to get all the classes needed for a writing minor in 4 years due to the availability of writing classes and I think that should be changed.
- Providing better student support services is key to student success.
- Safety to be better, get important things fixed when needed asap when it comes to safety. Better food options or have food at all. Have bathrooms cleaned more regularly and thoroughly clean, as well as restocking paper towels and toilet paper more than just once a week.
- Simplicity
- Stop hiring out of touch individuals and have a more merit-based funding system allowing for competition to flourish within all sectors and increase quality of everything around campus
- Students can't attend the social events if they're too loaded with homework to even leave their desks. The workload for classes is too high

- for a proper social life like the school is trying to go for. Also, be more thoughtful of students who AREN'T in athletics. There may be only 10% of the school who don't do sports or some small amount like that, but we still deserve some attention. Most of the events are athletics and physical activity related, but some events that are more low key or artistic would be much appreciated. Another thing is that this school is EXTREMELY inaccessible to those with disabilities. There's no proper braille for most signs, the paths are so broken and crooked that even able bodied students have trouble walking on it, and the entrances and alternative routes for wheelchair-bound students are inconvenient and poorly thought through. It's like the school's TRYING to keep disabled people from coming here. But, to be fair, since they wouldn't be in athletics, they wouldn't be treated as well anyway. Finally, fix the mold and ventilation problems in the buildings. Living on the first floor of Hilley for 3 semesters gave me PERMANENT breathing problems, and other students have dealt with it too. But the vents stay dirty and the buildings stay moldy despite student requests.
- The campus gym for general student use needs updating, only one treadmill works and all other cardio is broken. the equipment is alright but could use a deadlift platform and better weight plates
 - The education is attained easily as there are measures in place to help people reach their educational goals, but I don't think the quality of housing is keeping people here to carry on their education. Investment into housing - new washers/dryers, new ACs in Waters and Hilley, replacing parts of the elevators etc- would make the college look better and make it more attractive to someone coming in, but also create a comfort of that keeps people at Barton. I hope this helps
 - The primary major I wanted was something to help me become a software developer or an IT professional. So, I would've loved it if you guys had any technology majors.
 - The professors need to be MUCH nicer and better at their job. All of us are paying good money to go here and the way some of these "Doctors" act is not very professional or nice.
 - There is a nursing professor, Professor Pittman, who is very demeaning to students, she even yelled at the entire class, putting us down in front of visitors. I believe that she is very unprofessional. Also, I am a transfer student. I have a M.Ed., but still need to take the General Education class to graduate. I feel that this is unnecessary for me. I tried to register for the Summer class, but it was filled. Now I have to take it during my senior year, which will be very stressful. I believe that the college needs to reconsider making this class mandatory.
 - There needs to be a lot of changing to Barton College to make it a half decent school. My Barton experience has been very bad. The dorms are disgusting not properly cleaned always have problems. The woman's soccer program has not been a good experience whatsoever for me. The classroom is not what this college has to worry about, the teachers here are good it comes down to outside of the classroom that Barton needs to worry about. The food selection here is below par, social life is not good and the overall environment here is extremely negative.
 - The tuition amount (price) of attending Barton does not match it's facilities. For the price, the campus needs to be updated starting with the student center, the book store, parking lots, and dorms -furniture spaces(and fix the elevators).
 - this question is complex. but it seems as though the nursing facilities are in need of remodelling, and its my understanding that this is going to take place next year. This is going to bring a load of complexities to how you guys can manage and adapt to create a successful learning environment. this is going to be quite the challenge and im interested in how you guys are going to support the nursing instructors in accomplishing this.
 - To make Barton a better place to obtain a high-quality education, the main focus should be on campus life and the importance of all faculty members. Barton should ensure that important responsibilities are delegated appropriately. Barton must consider the quality of campus living, as many of the dorms and the apartments offered for students to live in have many concerns. Mold, cockroaches, mice, and uncleanly areas are common in specifically the dorm rooms on campus, this can raise health concerns. To help raise the quality of dorm rooms the following suggestions are: hiring an exterminator for all of the on campus dorms and improving door security with a new system. Many of the residence halls are also out-dated, so seeing an update to them may persuade more people into living on campus. Making living on campus more appealing and enjoyable, would allow students to have less concern about their safety and health, and would allow them to focus more on their academics. Overall, Barton does have a great community and the professors here care deeply about their students, but there is room for improvement on campus living to help better foster students success.
 - To stay focus on top of my work and make sure I manage my time very well with everything.
 - Tutors
 - Update the dorms. The dorms are very old, dirty, and falling apart. This is just in Hilley too, I've heard the same thing about the other dorms. Also need to add more washers and dyers to Hilley. There's 150 people in one building and there only 3 washers and 4 dyers that very often break.
